

IMPROVING **COMMUNICATIONS OPERATIONS & CUSTOMER EXPERIENCE** WITH INSIGHTS

TODAY'S BUSINESSES ARE **POWERED BY ANALYTICS**

Are your call center monitoring and analytics tools giving you the local and global insights, visibility, and reporting mechanisms to quickly troubleshoot the health of your communication infrastructure, end-to-end?

Digital transformation is changing how and where we work.

Businesses today are looking for seamless integration across mobile, voice, email, conferencing, and messaging to empower employees and enhance productivity. They also need a way to meet their clients wherever and whenever they want.

The Challenge For IT Professionals is the integration of tools, infrastructure, network, and applications to ensure a seamless experience for users

TIME

37% of the time spent in meetings

FOCUS

15 hours per week collaborating internally & externally

ADOPTION

700+ have at least 1 conferencing account

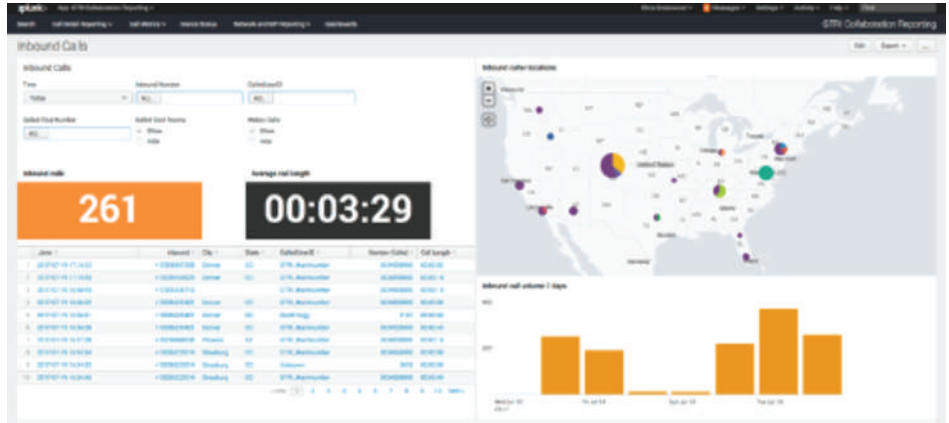

TRAFFIC

50% of enterprise voice traffic is conferencing

ZIVARO'S **UNIFIED COMMUNICATIONS (UC)** TEAM HAS OVER **60 YEARS OF EXPERIENCE** IN WORKFORCE COLLABORATION ARCHITECTURE AND ENGINEERING SERVICES.

We've helped hundreds of regulated market customers achieve more with Unified Communications by identifying their needs and processes, assessing their existing communications platforms and user experiences, and implementing a collaboration strategy with on-premise, cloud, and hybrid services to optimize productivity and enable agile collaboration.

With the combined value from Zivaro's UC and Analytics teams' efforts, we can help your organization gather more profound and actionable insights into your UC platform than standard monitoring and reporting.
